

Competences for the digital transformation of qualification

WOS 2024, T5S1

Rüdiger Reitz, Institute for Work and Health
of the German Social Accident Insurance
(IAG)

Pawel Babel, BG Verkehr

German Statutory Accident Insurance Institutions

- We are one of the largest training providers for continuing vocational education in Germany
- What will our training and further education look like in a few years' time?
Let's take a look!

Project Group: Digital Transformation of education and training

Overview:

- Duration: Start at the end of 2023, concluding by the end of this year
- Transformation Compass: scenario planning

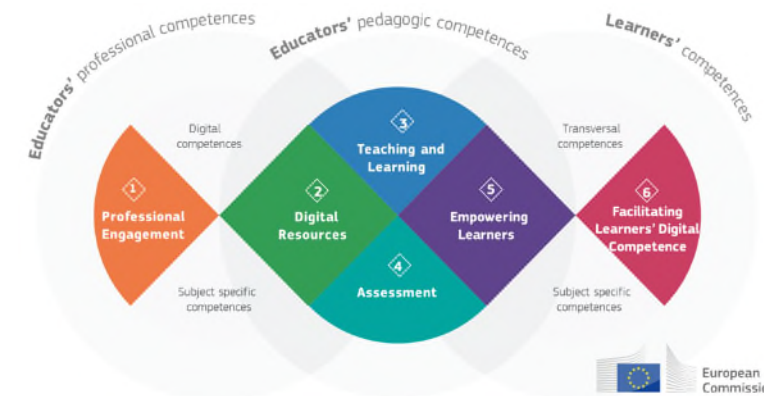

Recommendations for Action:

- Human Resources / People
- Products
- Change
- and Tools

People:

EU Framework Models Analysis

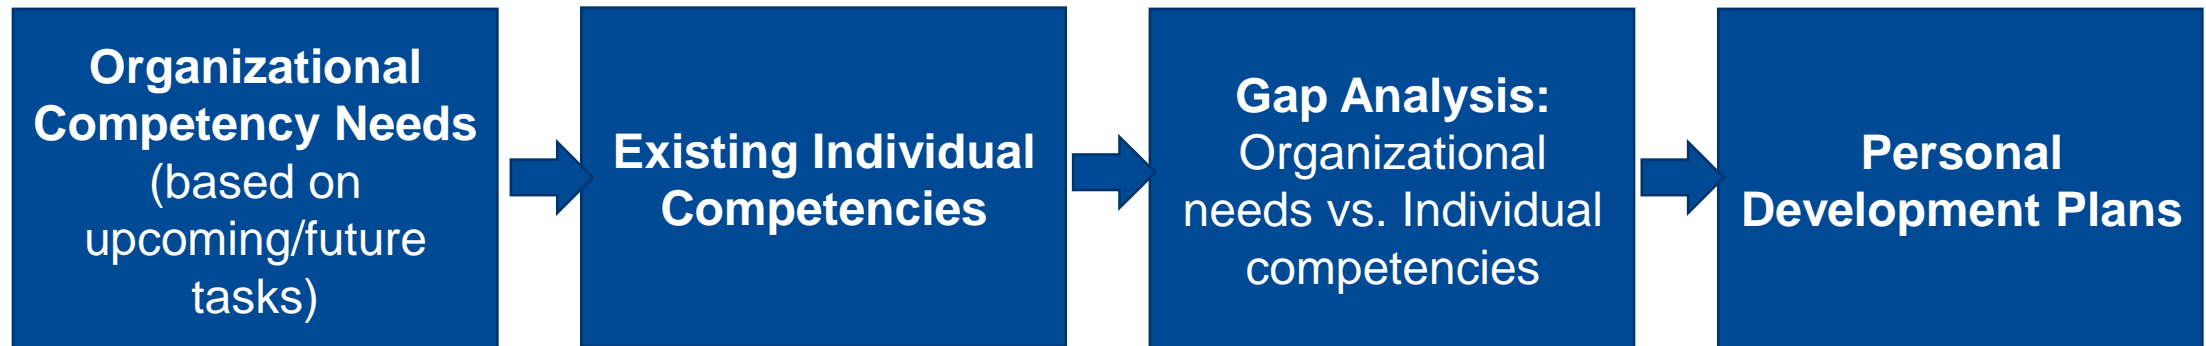

- Foundation for learning facilitators: DigCompEdu
- well-suited but requires adaptations for the daily work of learning supporters in our field

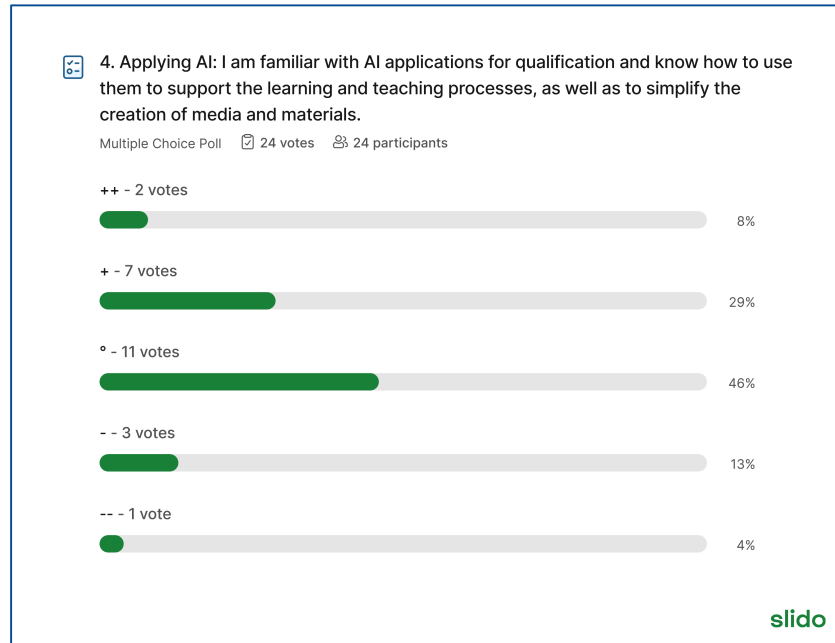

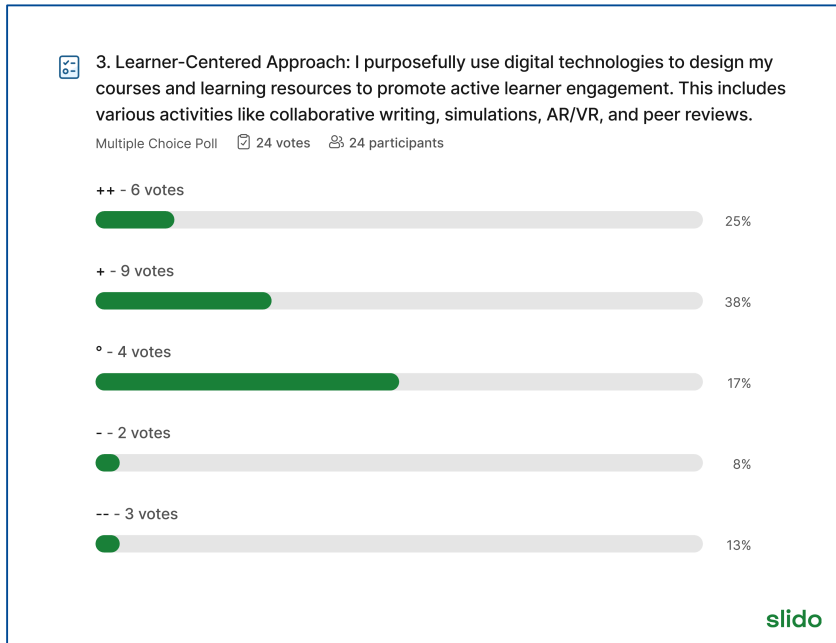

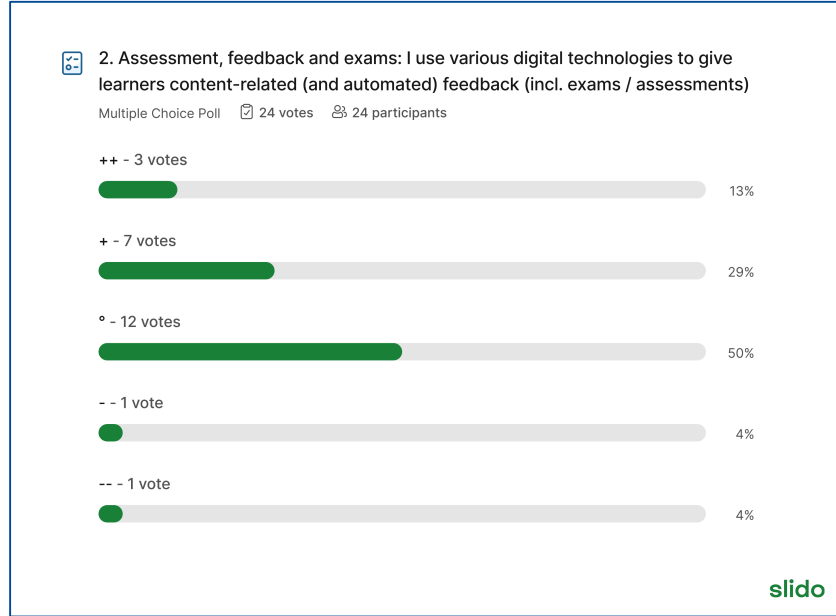

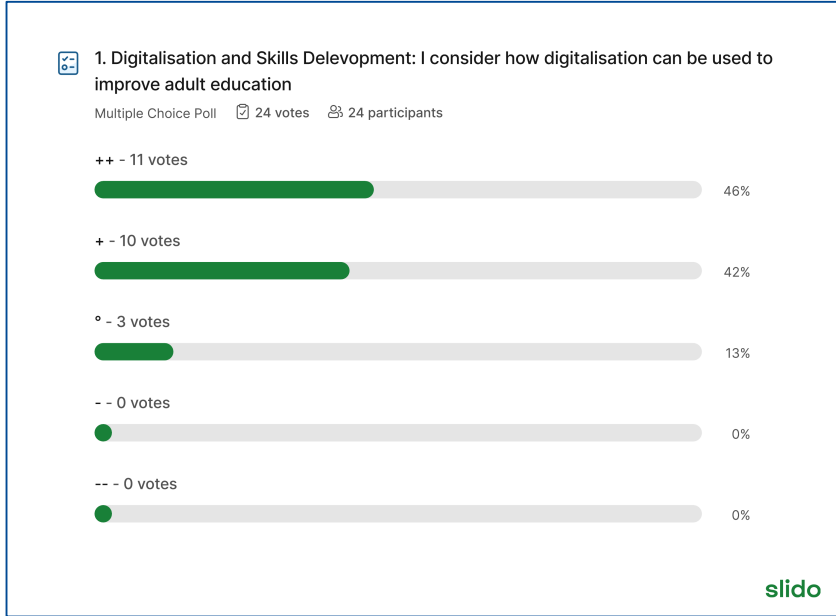

*Would you like to try
some questions?*

Self-assessment questionnaire

- DigCompEdu (2017): 22 key competences organised in 6 areas
- DGUV: 7 areas (added: Applying AI)
- 41 questions
